POLICY REPORT ON SPATIAL INFRASTRUCTURE IN FINLAND

COORDINATES FOR DEVELOPMENT

Pekka Halme

Director of Strategic Development, National Land Survey of Finland

February 22, 2018

The National Land Survey

- Founded 1812
- Under the Ministry of Agriculture and Forestry
- Cadastre, Land register, Mapping, Spatial Data Research
- Net-budgeted government agency
- 1760 staff
- Expenses 137 M€ (2016)
- Income 92 M€ (2016)

Where Did the Idea Come from?

- The effect and importance had been discussed in the NLS since some years.
- The Ministry of Agriculture and Forestry endorsed the idea and prepared it for wider discussion.
- The idea of such a report gained support and the process was started in 2017.

The Goals of the Report

A vision of spatial data functions in public administration

- 1. The opinions of those who produce, use and refine spatial data on how the Spatial Data Infrastructure in Finland should look at its best.
- 2. In addition to the full picture, what the public administration's part in the whole vision should be.
- 3. A view on how the public administration's part should be put into practice.

Timescale, about 8 years.
